

Town of Freedom

Addressing the Needs of the Town of Freedom and its Residents

The proposed Town Facility would provide the space and features needed for the Fire Department, Police Department, EMS and Town Administration to operate effectively and efficiently into the future, including:

- Adequate space to properly operate, maneuver and store Fire Department equipment
- Eliminates stacking of equipment to provide easier access during emergency calls
- More efficient layout for response to fire calls
- Additional parking for firefighters when there is an emergency call
- Room for a designated Emergency Operations Center for use during a storm or other disaster
- Space for the Fire Department to train and to test hoses and pumps

(continued on back page)

Addressing the Needs of the Town of Freedom and its Residents - continued

- Space for the Police Department to talk to victims and maintain confidentiality
- Additional evidence storage space for the Police Department
- Dedicated and secure hard interview rooms
- Improved safety and security for all operations
- Adequate space for storage of medical supplies, training props and equipment for First Responders
- A dedicated decontamination area for equipment and clothes
- Dedicated space for a rescue squad
- Space for additional town employees as the town continues to grow
- Additional room for in-house training for CPR, First Aid and other EMS requirements
- Adequate space for records storage, town meetings and for use by community organizations
- Improved lighting
